WARRANT FOR ANNUAL MEETING

State of New Hampshire

To the Inhabitants of the Town of Amherst in the County of Hillsborough, in said state, qualified to vote in town affairs:

You are hereby notified to meet at the Town Hall in said Amherst, on Tuesday the ninth day of March next, at eight o'clock in the forenoon to act upon the following subjects:

- 1 To choose all the necessary Town Officers for the ensuing year.
- 2 To raise such sums of money as may be necessary to defray town charges for the ensuing year, and make appropriations for the same.
- 3 To see if the town will vote to allow the usual discount on taxes: 3 per cent. to July 1st, and 2 per cent. to August 1st.
- 4 To see if the town will vote to raise and appropriate the sum of twenty-five dollars for material to paint and repair the two front halls in town house if Men's Club furnish labor.
- 5 To see what action the town will take, if any, in buying a stove for hall kitchen, and raise and appropriate money for the same.
- 6 To see if the town will vote to raise and appropriate a sum of money for the improvement of the village streets.
- 7 To see if the town will raise and appropriate the sum of sixty dollars to paint the Library fence.
- 8 To see if the town will vote to raise and appropriate a sum of money to buy a power grader.
- 9 To see if the town will vote to raise and appropriate a sum of money to oil the newly graveled road at Baboosic Lake.

10 To see if the town will raise and appropriate a sum of money to install two street lights on Waterfront St. at Baboosic Lake, by petition.

11 To see if the town will accept part of the right of way known as Waterfront St., from Wenzel's Grove to a point between the land of Beland and Cummings, by petition.

12 To see if the town will vote to raise and appropriate the sum of \$955.75, State to give \$3823.01 for Classified Roads improvements.

13 To see if the town will vote to receive State Aid; the State to pay \$1882.00, the Town to pay \$1882.00. Must be spent on Merrimack or Mont Vernon roads; the State will not co-operate on both Articles 12 and 13.

14 Is it expedient to revise the Constitution?

15 To transact any other business that may legally come before said meeting.

Given under our hands and seal this twentieth day of February, in the year of our Lord, nineteen hundred and thirty-seven.

RALPH C. BILLS
PERCY M. ODELL
CLINTON H. HOLT
Selectmen of Amherst

REPORT OF TOWN CLERK

For Year Ending January 31, 1937

This is to certify that I have issued Permits for the Registration of Motor Vehicles from February 1, 1936 to January 31, 1937 inclusive, to the amount of \$1,428.27 and have paid the same to the Town Treasurer.

Z. B. KEMP,
Town Clerk.

This is to certify that I have received for Dog Licenses issued from February 1, 1936 to January 31, 1937 inclusive, the sum of \$476 16 Less commission (172 licenses at 20c each) 34 40

Balance paid to town treasurer	\$441 76
Z. B. KEMP, Town Clerk.	

This is to certify that I have issued Sunday Licenses from February 1, 1936 to January 31, 1937 inclusive, to the amount of \$12.00 and have paid the same to the town treasurer.

Z. B. KEMP,
Town Clerk.

Amherst, N. H., Feb. 11, 1937.

We hereby certify that we have examined the foregoing accounts and find them correct.

MALCOLM D. CLARK,
ASHTON L. MARTIN,
Town Auditors.

SEXTON'S REPORT

Briefly outlining a few of the improvements in the cemeteries I might say: A well was driven at Crickett Corner Cemetery in the Spring, but although plenty of water was struck it did not hold out in the dry time, so a deeper well was driven in the Fall, and we expect there will be an ample supply for dry times. This we hope will encourage the setting out of ornamental shrubs on the lots.

The top of the tomb at Meadow View has been terraced for a flower bed, which will, we hope, take off the cold, bare appearance it now has.

The East field of Meadow View has been plowed and fertilized to prepare for a green turf instead of the Buffalo grass that keeps it looking so ragged.

The Cemeteries have had two general clean-ups and the Old Cemetery has been machine-mowed all summer.

The Sexton used \$7.52 of the Fisk Cemetery Fund to help out on some of the improvements.

The town will have to paint the fence at Crickett Corner in the near future, as it is decaying very rapidly.

CLARENCE H. HAGAR,
Sexton.

WARRANT FOR ANNUAL MEETING

State of New Hampshire .

To the Inhabitants of the School District in the Town of Amherst, qualified to vote in district affairs:

You are hereby notified to meet at the Town Hall in said district on the 9th day of March 1937, at two o'clock in the afternoon, to act upon the following subjects:

- 1 To choose a Moderator for the coming year.
- 2 To choose a Clerk for the ensuing year.
- 3 To choose a Member of the School Board for the ensuing three years..
- 4 To choose a Treasurer for the ensuing year, July 1, 1937, to June 30, 1938
- 5 To determine and appoint the salaries of the School Board and Truant Officer, and fix the compensation of any other officers or agents of the District.
- 6 To hear the reports of Agents, Auditors, and Committees, or officers heretofore chosen, and pass any vote relating thereto.
- 7 To choose Agents, Auditors and Committees in relation to any subject embraced in this Warrant.
- 8 To see if the District will vote to make any alteration in the amount of money required to be assessed for the ensuing year for the support of public schools and the payment of the statutory obligations of the District, as determined by the School Board in its annual report.

9 To see how much money the District will raise and appropriate for special repairs and alterations of school property, for new equipment, and for new construction or for the purchase of property to be used for school purposes, and to issue serial notes if necessary.

10 To see how much money the District will raise and appropriate for insurance of school property.

11 To see if the District will vote to sell any of its school-houses or other school property, or take any other action in relation thereto.

12 To transact any other business that may legally come before said meeting.

Given under our hands at said Amherst this eighteenth day of January, nineteen hundred and thirty-seven.

A. L. UNDERWOOD,
WOLCOTT STUART TELFER,
RALPH P: CURRIER,
School Board

Z. B. KEMP,
Clerk of School District.

March 12, 1936.

REPORT OF SUPERINTENDENT OF SCHOOLS

To the School Board of Amherst:

I herewith submit my eighteenth report which is the twenty-eighth in the series of such reports. This report will contain certain statistical information which has been recorded year by year for the purpose of putting the same in permanent form and also to have available for comparison with similar information in previous years. Also the report includes some general observations and recommendations in regard to the schools.

Union No. 40

Districts in Union: Amherst, Brookline, Hollis, Milford, and Mont Vernon.

Percentage of joint expenses paid by each district: Amherst 17%, Brookline 8%, Hollis 14%, Milford 56%, and Mont Vernon 5%.

High School and Grades VII-VIII

For several years now the upper six grades—VII through XII—have been grouped together for purposes of instruction and administration. Although we operate only as a state approved four year high school nevertheless grades VII and VIII have the benefit of departmentalized instruction in all regular subjects and take part in many of the extra-curricular activities which, in fact, are planned as an important part of the pupils' education.

Although the present laboratory is much better than the facilities of a few years ago, future building improvements should include plans for enlarging and modernizing this room and a combination assembly hall and gymnasium would also be a most valuable addition to the school plant.

The teaching staff has one change from last year. Mr. Edward A. Bugbee, after a successful year as science teacher, resigned to accept an ap-

pointment in Stoneham, Massachusetts. His place is taken by Mr. Russell S. Hanson of Sanbornton, New Hampshire. Mr. Hanson is a graduate of the University of New Hampshire and has had advanced study in science.

ENROLLMENT AS OF JANUARY 31, 1937

Amherst High School

Grade	IX	X	XI	XII	Totals
Girls	8	4	11	6	29

Elementary tuition pupils at Merrimack, January 31, 1937 4

Total pupils Grades I-XII, January 31, 1937 191

Grand total, including tuition pupils as of Jan. 31, 1937 216

For further details about program of study, and general operation and administration, you are referred to Headmaster Mason's report.

Elementary Schools

Grades I-VI.

Accommodations for these children are far from ideal. The grouping of grades is I and II in the north room downstairs, III and IV in the adjoining room, and V and VI in rented quarters in the upper room of the church property adjoining the school lot on the north, once the G. A. R. Hall. This room was remodeled to provide standard lighting and ventilation. Even though it is a very great improvement over the lower north room in the main schoolhouse (now the laboratory), it should be considered as a temporary situation only. It is too small in size and too low posted to provide the proper cubic space per pupil, and it is crowded at the present time. The two rooms in the main building now have good heat and ventilation but do not have the proper ratio of window area to floor area. This is not easy to increase due to the brick construction of the building.

In addition to maintaining schools in the three grade rooms mentioned, tuition is provided for twenty-one elementary pupils to attend at Milford from the Border Street and Christian Hill sections and similarly for four pupils at South Merrimack for families who live within walking distance of that school.

All of the above facts are brought to your attention with the hope that a better and permanent housing plan may be worked out and put into operation at an early date.

All of the instruction at the present time is in charge of experienced teachers who hold normal school diplomas.

Rural Schools

No rural school is maintained at the present time, transportation to the village building being arranged for pupils who live at a distance of two miles or more. The district still owns buildings at Cricket Corner and Border Street. These will deteriorate rapidly if left idle and so should be disposed of at once if they are not to be used again for school purposes.

Adult Education

A correspondence center, so-called, for study courses for persons over sixteen years of age not attending schools or colleges has recently been opened at Milford. This is sponsored by the State Board of Education in cooperation with the Works Progress Administration. The immediate supervision is under the direction of Mr. Francis C. Reagan of Mont Vernon who is Supervisor of Adult Education. These courses are without expense to those who enroll and are not limited to persons who live in Milford. For further details consult Mr. Reagan or the Superintendent of Schools.

Repairs and Alterations

Since a year ago the following things have been done in addition to the ordinary items of a minor nature which call for no comment:

1. Weather strips: All windows and doors at the village building have been fitted with Chamberlain metal strips which prevent air leakage and rattling of frames. Also cracks between window and door frames and the brick walls have been filled with a caulking compound forced in with a pressure gun. This has resulted in a warmer building with easier and better temperature control. The outlay is expected to pay for itself eventually in fuel saved.

2. The Teachers' Room has been further im-

proved by the installation of a lavatory and a new radiator for steam heat.

3. The water pump and the pressure tank in the basement have given so much trouble that a new electric pump was put in last summer. This up-to-date equipment seems to be working very satisfactorily. Incidentally; a liberal allowance was made for the old pump. Some other minor changes were made in the water system.

4. A fire escape ladder has been built and installed on the northeast corner of the "annex" building. This provides a second exit from the schoolroom on the opposite side of the room from the regular stairway.

5. Dark window shades have been installed on all windows in the main room of the high school in order to make it possible to use this room at any time for picture projection. These were paid for from the Gerber Fund of the High School and are an appreciated addition to the room facilities, especially in connection with the 16 mm. film projector recently bought by the Triple Entente Association.

6. Painting: The plan of redecorating at least one room each year was continued and Miss Bouvette's room (lower floor southwest) was given a needed coat of paint.

7. Science stock room: One corner of the laboratory was made into a large closet or stock room by the erection of heavy wire partitions and installation of shelving. This provides a much needed storage space.

8. Floor waxing has been continued and maintained until now all floors are in as good condition as can be expected of old floors—they look well and are easy to keep clean—and, by the way, they are kept clean.

For the coming year the following things are listed as recommendations:

1. Painting to be continued by redecorating the laboratory and, if possible, refinishing halls and toilets on the first floor so that exterior painting may be done in 1938.
2. Ventilators for toilet rooms need to be arranged without delay. When the new ventilating system was installed in 1934, service for these rooms was omitted to reduce costs. The need, however, is quite imperative.
3. The water system should be further extended so that there may be at least one convenient outlet on the upper floor for washing and drinking purposes. The laboratory, too, would be better equipped if the two outlets could be increased to four.
4. Satisfactory instruction in science requires the performance of a considerable number of laboratory exercises. Many of these depend upon the application of heat which we now get from alcohol lamps—a type of equipment which at best is only fairly efficient. The use of compressed gas which is supplied in metal tanks (such as Pyrofax) would solve this problem very satisfactorily. Also the purchase of a few laboratory stools would add much to the convenience of the pupils.
5. A central electric clock and fire alarm system would do away with the several old wall clocks now in use, and, most of all, would be a measure of safety. It may be of interest to have reported that in cases of fire drills this year the buildings (including the "annex") have been cleared in sixty seconds or less.

Cooperation in Education

This is the theme for the 1937 convention of the New Hampshire State Teachers' Association to be

held in the new High School building at Nashua next October 21 and 22.

In the January bulletin of the Association, the President, Superintendent Earle T. Tracey of Nashua, writes this message:

"The history of American Society shows us that there have been relatively long periods of what might be termed static life. During these periods of time, the political and social structure of our country was so well established that little question arose as to what should be taught the youth of the nation. Their education was the education of their fathers and mothers.

"Today, the whole life of our country, political, social, and economic, is in a state of change. Such a condition of affairs naturally brings with it disagreement and uncertainty. Never before was the spirit of controversy so rampant as at present. Education itself is affected by it to the extent that parents and educators are asking themselves, 'What shall we teach the younger generation?' . . . The depression has made students more serious, more diligent, and more purposeful. It has made educators more critical of their work, and it has made parents more sensitive to the value of education.

"These ought to be our objectives for 1937:

1. A curriculum that meets present-day needs.
2. Better home and school cooperation.
3. A continuous community program for childhood and youth.
4. Better integration of school life and life outside the school.

"Alone, the objectives cannot be accomplished. All the adult public must be enlisted in this work, for it is only to the extent of its confidence and support that we may achieve these objectives. The job of education belongs not alone to the craft,

but to every individual of the community. May we in 1937 strive for the cooperation."

Respectfully submitted,

HAROLD C. BALES,
Superintendent of Schools.

REPORT OF HEADMASTER

To the School Board, Superintendent of Schools,
and Citizens of Amherst, New Hampshire:
I hereby submit my second annual report.

School opened September 8, 1936 with forty-six pupils enrolled in the high school, eleven of whom were seniors. There were thirteen pupils enrolled in the eighth grade and twenty-four in the seventh. Except for the absences due to the recent epidemic of grippe, attendance has been very good. Tardiness has been practically eliminated. For the first half year there were only three cases of tardiness in the high school, none in the eighth grade, and only two in the seventh grade. For any further statistics please refer to the tables of attendance in the Superintendent's report.

I have enjoyed the continued cooperation of the teaching staff in every particular. They have attempted to the best of their ability to seek out and correct the weaknesses in each individual pupil; to work harmoniously with the school officials; and to serve as useful citizens of the community. Teachers' meetings are held every two weeks alternating between the high school teachers and the elementary teachers. There are meetings of all the teachers combined held every three months at which we discuss our common problems. All the teachers attended the State Teachers' convention held in Littleton on October 8-9.

The Amherst teachers entertained the teachers of Supervisory Union No. 40 at the joint meeting held in September. An excellent dinner was served by the Parent-Teacher Association after which an instructive and inspiring speech was given by Mr. Walter M. May, Deputy Commissioner of Education of New Hampshire. We were later entertained

by the Hollis teachers at a Hallowe'en party. These meetings serve the dual purpose of promoting friendly relations between our neighboring schools and furthering a high professional standard of teachers. For the same reason your headmaster continues to attend the monthly meetings of the Headmasters' Club at Peterboro, which is composed of fourteen headmasters of this section, where we discuss our mutual difficulties.

This year for the first time a complete social activities program, containing the major social events of the year, was prepared in September. We were thereby able to reduce the conflict between events and allow the proper spacing of time for the preparation of each. The parts of the program already presented are: a party for the Triple Entente Association, supervised by Mrs. Conners of Hudson; a play entitled "Little Women" for which the actors, committees and coaches received sincere and well deserved praise; a public dance; a pot-pourri program composed of two one-act plays, singing, instrumental music, and novelty features; and seventh and eighth grade prize speaking which was sponsored by the Parent-Teacher Association. The program for the rest of the school year consists of an operetta; high school prize speaking sponsored by the Grange; the publication of the annual magazine known as the Broadcaster; the "Junior Promenade"; a school trip, and graduation exercises.

Most of our activities are sponsored as usual by the Triple Entente Association which is an organization composed of all the pupils from grade seven to twelve and the high school teachers. This organization elects its own officers and committees and manages its affairs at meetings held on alternate Wednesdays during the activity period. The Triple Entente Association develops in the pupils many

worthwhile abilities such as how to act in a meeting conducted under parliamentary rules, how to handle their own funds, and how to stand up on their feet in public and voice their opinions. Last year the Association decided to inaugurate a student council whose duty it should be to enforce their regulations in regard to the care of the school grounds and proper conduct in the halls, on the grounds, and on the buses. The council also provides two student traffic officers at the main road intersections to care for pupils crossing the street. The pupils liked the idea of the student council so well last year that they decided to continue its operation for another year. The Association has recently purchased a motion picture projector with which they have enjoyed several interesting and instructive programs. By the use of motion pictures they are able to see and understand things which they would never be able to grasp in any other way.

The pupils continue to enjoy the presentation of music by Miss Wheeler on Thursdays. Miss Wheeler is very conscientious and has made several trips to Amherst when the roads were almost impassable. She has also made several extra trips to attend evening programs of the school. The operetta which is to be presented in a few weeks is under her supervision.

Programs for Armistice Day, Education Week, and Lincoln's birthday were created and presented by the officers of the Triple Entente Association. A program for Theodore Roosevelt's birthday was presented by grades nine and ten.

Continuing last year's speaking program, every pupil from grade seven to twelve was first required to give before the assembled group a prepared but not memorized speech on some current event or topic of interest. Later each pupil was required to give a memorized speech or poem to the assembly.

This program, which is part of the regular English work, is still in progress. The activity period on Tuesday of each week is devoted to this program. By doing this the pupils develop the ability to stand up and speak before an audience which will serve them well both in school and after graduation.

The pupils are industrious, orderly, well behaved, and desirous of obtaining the benefits offered them at the high school. I wish to take this opportunity to thank them for the cooperation they have shown by their fine attitude.

The baccalaureate address last year was given by Mrs. Elsabeth Elkins of Concord. She is considered to be one of the best women speakers in the state and certainly proved this statement that night. Others on the program were Rev. John W. Starie, Rev. Amos F. Chase, Mr. H. C. Vose as soloist, and Mrs. Frieda Peavey as organist. The graduating class last year decided to dispense with the usual valedictory and salutatory addresses at the graduation exercises, merely choosing those parts they desired to give. Mr. Charles Tracey gave an excellent address at the close of the program. Many compliments were given to the class for the exceptional beauty of the decorations.

For the benefit of those who would like to visit school I present the following time table and with it the earnest plea that more parents try to visit us even if only for a short while.

8:30 to 9:15—Office, Mr. Mason; History XI-XII, Miss Piper; English IX-X, Miss Baker; Arithmetic VII, Mr. Hanson.

9:15 to 10:00—Algebra, Mr. Mason; Latin II, Miss Piper; English VIII, Miss Baker; Physiography, Mr. Hanson.

10:15 to 11:00—Geometry, Mr. Mason; Arithmetic VIII, Miss Piper; French III, Miss Baker; Laboratory, Mr. Hanson.

11:00 to 11:45—Advanced Mathematics, Mr. Mason; History VIII, Miss Piper; English VII, Miss Baker; Biology, Mr. Hanson.

12:45 to 1:25—Activity Period (Monday, drill in arithmetic and geography; Tuesday, public speaking; Wednesday, Triple Entente Association meetings and motion pictures; Thursday, music supervision; and Friday, drill in spelling).

1:25 to 2:10—Economics, Mr. Mason; History VII, Miss Piper; French I, Miss Baker; Science VIII, Mr. Hanson.

2:15 to 3:00—Office, Mr. Mason; Civics and Occupations, Miss Piper; English XI-XII, Miss Baker; Geography VII, Mr. Hanson.

The only change in the program this year is the introduction of a full year course in Economics (alternating with Sociology and open to Juniors and Seniors) and a new course entitled Physiography, which is a study of the earth's surface, climate and related material.

We were very sorry to lose Mr. Bugbee from our staff but fortunate indeed to receive so capable and well trained a teacher as Mr. Hanson in his place. Miss Piper and Miss Baker continue to give their invaluable service to the school.

Our janitor, Mr. Phelps, as he did last year, keeps the building in perfect condition in regard to both temperature and tidiness. The atmosphere of neatness is a good example to the pupils and an excellent aid to the teachers in teaching their classes.

In closing I wish to express my heartfelt appreciation for the excellent support and cooperation that I have received from school officials, parents, and friends, during the year.

Respectfully submitted,

HOWARD F. MASON,

February 16, 1937.

Headmaster.

REPORT OF SCHOOL PHYSICIAN

To the School Board of Amherst, New Hampshire:

The following is the annual report of the medical inspection made October 1936.

Number examined:

Pupils 187; Teachers 7; Janitor 1; Total 195
Number not present: 1

Defects	Cases found	Cases reported to parents
Underweight (10 %)	6	6
Defective vision	1	1
Defective hearing	3	3
Anaemia	1	1
Nervous condition	1	1
Cardiac disease	5	1
Pediculosis	3	3
Skin disease	10	9
Deformity	3	2
Defective teeth	53	53
Diseased tonsils	22	22
Enlarged glands	4	4
Unvaccinated (without proper excuse)	6	6

Respectfully submitted,

OSCAR BURNS, M. D.,
School Physician.

February 1, 1937.

REPORT OF SCHOOL NURSE

To Mr. Harold C. Bales, Superintendent of Schools,
Amherst, New Hampshire:

I herewith submit my fifth annual report of the health work in Amherst schools, it being the seventeenth year of this work.

The medical inspection was made by Dr. Burns.

A report of defects found will be given in the School Physician's report.

Milk was furnished to the undernourished children during the winter of 1935-1936 for a few weeks by the Federal Government.

Tonsil cases have been taken care of at Grasmere Hospital.

Ten children were found to have defective vision. Some of these were corrected after being reported to parents and I have assisted others to get glasses.

Plans are under way for a dental clinic this spring. This is being sponsored by the Parent-Teacher Association.

One hundred and two school room visits have been made during the year for correction and instructive work and home visits are made when necessary for health problems.

At present we have one child attending school who is unvaccinated. Five were vaccinated by the School Physician after the physical examinations were made.

We have had many children absent on account of illness and I believe many of these could have been prevented if parents would keep their children out of school at the onset or the first signs of illness, thus isolating the disease.

In closing I wish to express my appreciation to school officials, teachers, parents, and all volunteer workers for their grand cooperation during the year.

Respectfully submitted,
VENITA H. CARTER, R. N.,
School Nurse.

February 16, 1937.
